PROFESSIONAL SUMMARY

BCA (Hons.) student specializing in Cyber Security & Forensics with hands-on academic experience in web application development, database management, IoT systems, software testing fundamentals, and AWS cloud concepts. Working knowledge of PHP, MySQL, HTML, CSS, Bootstrap, JavaScript, React, React Native, Python, Linux, Git, GitHub, networking fundamentals, and foundational cybersecurity concepts. Seeking an entry-level IT opportunity to apply technical knowledge, problem-solving skills, and willingness to learn.

TECHNICAL SKILLS

Programming & Web: PHP, Python (Basic), JavaScript (Basic), HTML5, CSS3, Bootstrap, React (Basic), React Native (Basic), WordPress

Database: MySQL, Relational Database Concepts, CRUD Operations

IoT & Systems: IoT Fundamentals, Raspberry Pi, MicroPython, Hardware-Software Integration

Cybersecurity & Networking: Cybersecurity Fundamentals, Cyber Security & Forensics, Networking Fundamentals (Basic), Security Tools (Basic)

Cloud & Version Control: AWS Cloud Fundamentals, AWS Solutions Architecture Concepts, Git, GitHub, Linux Fundamentals

Testing & AI: Software Testing Fundamentals, Generative AI Applications

Productivity: MS Office, Google Workspace, Excel-based Data Analysis

PROJECTS

Student Attendance System / *Academic Project*

Technologies: PHP, MySQL, HTML, CSS, Bootstrap

- Developed a full-stack web application to digitize student attendance and reduce manual record-keeping.
- Designed a relational MySQL database and implemented CRUD operations using PHP.

Fire Alarm Alert System / *Academic / IoT Project*

Technologies: Raspberry Pi, MicroPython

- Developed an IoT-based fire and smoke detection system using Raspberry Pi.
- Implemented sensor-based alert logic using MicroPython and gained practical exposure to hardware-software integration.

Travel Management System / *Academic Project*

Technologies: PHP, MySQL, HTML, CSS, Bootstrap

- Developed a database-driven travel booking and management portal using PHP and MySQL.
- Designed a responsive front end using HTML, CSS, and Bootstrap.

CERTIFICATIONS & TRAINING

- AWS Solutions Architecture — FutureSkills Prime / NASSCOM (2026)
- Adobe Generative AI Certification — FutureSkills Prime / NASSCOM (2026)
- NASSCOM Certification Program — Accenture / FutureSkills Prime (2025)
- Software Testing Fundamentals
- Internet of Things (IoT) — Foundational

EDUCATION

BCA (Hons.), Specialization: Cyber Security & Forensics — *Pursuing*

Parul Institute of Computer Application, Parul University — Vadodara, Gujarat
